

# 2018 STEM Scholarship Program

Each year, to promote higher education in the STEM fields of computer science, engineering, mathematics, physics, chemistry and management information systems through financial scholarship awards, AFCEA Washington, DC sponsors STEM scholarships for graduating high school seniors.

Since May 1989, AFCEA Washington, DC has awarded 373 scholarships totaling more than \$2,400,000 to students from 112 area high schools going to 71 U.S. colleges.

To apply for an AFCEA Washington, DC Chapter scholarship, applicants must meet the following requirements:

- U.S. Citizen or Permanent Resident
- Resident within Metropolitan Washington Council of Governments
- High school senior or second year student in a two-year Community College
- Acceptance to a U.S. accredited college or university in a four-year full time STEM curriculum for computer science, engineering [all], mathematics, physics, chemistry, cybersecurity and management information systems; and Command, Control, Communications, Computers and Intelligence (C4I)-related fields of study including electrical, computer, chemical, aerospace or systems engineering or electronics
- Winners of full tuition scholarships are not eligible.

Selection of applicants will be based on achievements in the following areas:

- Academics
- School activities
- Financial need
- Letters of recommendation

**Deadline to submit your application is April 24, 2018.**
